

IN THE CLAIMS:

Please amend the claims pursuant to 37 C.F.R. 1.121 as follows (see the accompanying "marked up" version pursuant to 1.121):

Sub
D1
1. (Amended) A board game apparatus designed to acquaint players with a predetermined region as represented on a map, said apparatus comprising:

a board having predefined directions thereon corresponding to directions on said map and including a series of marked areas forming a path extending about said board, each of said marked areas representing a particular locality within said region, having indicia therein identifying said locality, and being disposed on said board to correspond generally with the location of said locality on said map, selected ones of said marked areas on said board being designated as accessible only by indicated modes of transportation;

a plurality of multi-token means, each said multi-token means dedicated to a different player and being moveable for transportation along said path, wherein each said multi-token

(a) is a parallelepiped object with four flat sides and two opposite ends,

(b) the surface of each of at least three of said flat sides has a respective visual representation of a different mode of transportation for use by the corresponding player,

and the said flat sides permitting vertical stacking of a plurality of said tokens with each token in a stack displaying at least two flat sides and one visual representation of a mode of transportation,

(c) each of the opposite ends of said parallelepiped object also having thereon a respective visual indication of movement of the token relative to said board, with one of said visual indications to be placed facing a said marked area and the other facing the opposite direction to be viewed to indicate the playing status of the multi-token, each token to be moveable only with respect to marked areas corresponding to localities accessible by the corresponding mode of transportation; and means for determining the movement of each said multi-token means about said path.

✓ SUB E P 24. (Amended) A board game apparatus as in claim 1, wherein a plurality of multi-tokens stacked at a marked area has each multi-token in the stack displaying its respective visual indication displayed.
